To  
The Programme Staff Association  
New Delhi.

Sub: **Expressing Support for Silent march on 11/03/2016.**  
Hi Friends

The Supreme Court of India in a land mark judgments on promotions in service has observed that "Promotion increases the efficiency of the public service and stagnation reduces the efficiency and makes service ineffective.

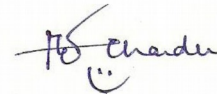

Even then the extreme levels of shortage of staff being experienced in the All India Radio. For example programme cadres of the organization SAG - 4, JAG - 98, STS - 186, Total 288. At many stations the Programme Executives have been for years thanklessly carrying out the work of the Assistant Stations Director/Station Director, as the posts have been lying vacant. There is NO DPC for Announcers since 1995 due to non availability of Station Directors. So it's directly reflecting upon not only AIR but on Announcers Promotions also. Anguish, agony and unrest in the minds of employees especially in creative progreamme persons due to stagnation and lack of promotional avenues for decades are directly reflecting upon performance. Taking into consideration all the above mentioned points though we belong to Left over Cadres, it's a moral binding to the Associations to support unconditionally each other for justified cause in the interest of Organization and collogues.

Brothers and Sisters,

In this contest with reference to the PSA letter about seeking support AAA for Silent March, I am pleased to convey the total support and solidarity. At the same time I seek support of our PSA in AAA activities also.

Best of luck comrades!  
With Regards,

Yours faithfully

**M. Chandrasekhar**
